WORK EXPERIENCE

Full Stack Developer

Feb 2026 – Present

LeLo Consulting — Remote (US Client) • Concurrent with Invade Solutions

- [Architected and shipped Node.js/Strapi CMS backend for Clearway Medical Group, serving 5+ clinic locations across the US with a complete headless API and deployment pipeline](#)
- Redesigned 4 client websites using WordPress (Still Waters Counseling, The Plumbing Dr PDX, Life Unleashed Farm, LeLo Consulting), improving SEO structure and page performance across all sites
- [Engineered full-stack Node.js rebuild of leloconsulting.com, replacing legacy codebase and improving maintainability](#)
- Coordinated concurrent delivery of 4+ client projects across healthcare, legal, and agricultural industries with zero missed deadlines

Backend Developer

Jun 2025 – May 2026

Invade Solutions — Cairo, Egypt • Concurrent with LeLo Consulting

- Engineered 20+ Laravel REST API endpoints for the Fagnoon platform, enabling full frontend integration and third-party connectivity
- [Architected and shipped Node.js backend for IBDL — an enterprise CMS/LMS platform serving accreditation exam candidates across multiple organisations](#)
- Provisioned 2 enterprise survey platforms (Queryz360 & Queryz V2) on Banque du Caire (BDC) production servers, ensuring secure integration and regulatory compliance
- [Implemented Deka Egypt platform backend using Node.js and Strapi headless CMS, delivering a scalable content API with 10+ content types](#)

Backend Developer

Mar 2024 – Jun 2025

EasySRV (Egy Solution) — Cairo, Egypt

- Led backend architecture for EasySRV v2, decomposing a monolithic system into 3+ independent microservices to improve scalability and deployment flexibility
- Diagnosed and resolved 10+ critical bugs across the EasySRV production codebase, improving system stability and reducing error rate
- Planned and launched the EgySolution corporate portfolio website from scratch, showcasing company services and client work

Full Stack Web Developer

Dec 2022 – Feb 2024

AMIT Learning — Cairo, Egypt

- Maintained and scaled CRM and LMS systems serving 5,000+ active learners across 50+ courses, using Vue.js and Laravel
- Launched the AMIT Learning public website, featuring course catalogues, diploma booking, and payment integration
- Integrated and secured 10+ API endpoints, improving platform accessibility and data protection
- Optimised marketing section for SEO across 5+ landing pages, enhancing organic search visibility and driving higher inbound traffic

Frontend Developer (Contract)

Nov 2024 – Jan 2025

Sure Global Technology (SGT) — Cairo, Egypt

- Parachuted in on a 3-month contract to complete Vue 2 → Vue 3 migration across 2 projects, unblocking a stalled team and accelerating client delivery by 6 weeks

Frontend Developer (Contract)

Aug 2024 – Oct 2024

Sinbad — Cairo, Egypt

- Contracted for 3 months to complete a Vue.js dashboard with 8+ modules, stepping into a team gap and ensuring on-time delivery for the client

SELECTED PROJECTS

Clearway Medical Group clearwaymedicalgroup.com — Node.js, Strapi

Strapi-powered headless CMS backend for a US medical group; full content API and deployment pipeline.

IBDL Platform ibdltest.invade.solutions — Node.js, CMS/LMS

Enterprise-grade CMS and LMS platform for international accreditation body, built and deployed at Invade Solutions.

AMIT Learning Website & LMS — Vue.js, Nuxt.js, Laravel

Full-stack CRM and LMS with 5,000+ active learners. Includes course booking, diploma management, user profiles, and payment integration.
